Didsbury Hockey Club Organize for Season

There was more than the usual enthusiasm shown at the Hockey meeting held on Monday night, when a number of hockey fans met in C. E. Reiber's office.

The better facilities which will be provided this year, will tend to improve the game, and a line-up of players should give Didsbury a real hockey team again, this season.

The following officers were elected: Hon. President: Mayor Chambers; President: Dr. Evans; Vice-president: Mr. W. G. Liesemer; Secretary: Mr. J. W. Hulton; Manager: Mr. Geo. Julien; Transportation Committee: Messrs. W. McFarquhar and Geo. Julien.

A committee was appointed to arrange for a dance and whist drive which will be held for the purpose of raising funds. Messrs. J. Caithness, Geo. Julien, and W. McFarquhar were appointed as a committee to arrange with the town for use of the rink.

The secretary and manager were appointed to attend to the organizing of a league.

Elevators to be built At Madden and Cremona

Voss Bros., elevator contractors, are in town today, (Thursday last) arranging for the hauling of material to build elevators at Madden and Cremona.

Foley Bros., of Winnipeg, bridge contractors, arrived here the first of the week, and are making arrangements for constructing the five bridges on the branch line between Crossfield and Cremona. Steel will be laid to Cremona this year.

—Crossfield Chronicle.

Get On The List!

At the Town Office, during the present month, applications may be made under provisions of Section 24 of the Town Act, for inclusion on the Voters' List.

One wife, husband, father and mother, and every son and daughter of any person whose name appears on the Assessment Roll, are entitled to be placed upon the said list, providing they comply with the rules of the Act, which may be ascertained by making enquiries at the office of the Secretary-treasurer any day during office hours. Further, all tenants who have rented an assessed parcel of land for a period of twelve months, immediately preceding the last day of August, this year, and who duly make application during this month, (October) are entitled to be placed on the Voters' List.

In Memoriam

SARAH JANE LEADBETTER

The officers and members of St. Hilda's Chapter, No. 27 O.E.S. wish to express their sincere sympathy with Mr. W. Leadbetter, and Miss Millicent Leadbetter in their recent sad bereavement of a beloved wife and mother.

The Chapter mourns the loss of Sister Leadbetter, who was a faithful member for fourteen years, and was also a Past Matron. Her presence amongst us will be greatly missed.

May we who are left, have more interest in each other, and in all that pertains to the work of the Order.

Drawn up by a committee on behalf of the members of our Chapter.

Mrs. A. A. Gilson, of Olds, visited with her sister, Mrs. J. E. Gooder, this week.

LOCAL & GENERAL

The Y Girls are planning a Tea, and Sale of Candies and Home-cooking, soon. Watch for further notice.

A series of dances will be held in the Didsbury Opera House, every Saturday night. Ladies, 25c. and Gents, 25c. Bellamy Orchestra. u.f.n.

Rev. A. E. Hayes occupied the pulpit at Olds United Church last Sunday. He expects to be at Knox Church, Didsbury, this Sunday, with a special message.

Red Deer Presbytery are holding a Young Peoples Rally at Olds United Church, on Friday, October 24th, commencing at 5-30 p.m. with a supper.

Twenty head of Jersey cattle were shipped from the Norman Clarke farm this week. Shipments were made to Stettler, Camrose, and Manville.

Mr. W. H. Matthews, who used to be C.P.R. operator at Didsbury, and who, for some years, has been at Cochrane, has been appointed as station agent at Torrington.

On Friday, October 24th, at 8 p.m., there will be held in the Opera House, High School Exercises in connection with the presentation of the I.O.D.E. Prizes. Everybody heartily welcome.

The Westcott W.I. are holding a concert in Westcott School, on Friday, October 24th. The concert is to be followed by a bazaar. Admission: Adults, 25c. Children under 12 years, free.

Didsbury Rinks Ltd. will hold their annual meeting in C. E. Reiber's office on Monday evening, October 27th. Election of officers, and other important business will be transacted. All shareholders are asked to be present.

No shooting of deer of any species will be allowed east of the C.P.R., from the city of Calgary, north, to where the railway intersects the North Saskatchewan River at the city of Edmonton. This will be sufficient notice to sportsmen.

Don't forget the Masquerade Ball under the auspices of Mons Chapter I.O.D.E., in the Opera House, on Friday, November 7th. Admission: 75c. each, lunch included. Costumes may be hired at the residence of Mrs. J. S. McCloy.

43 3c

The dates of Didsbury Chautauqua are October 28th, 29th, 30th, and 31st. Ticket-sales are progressing very well, and everyone should see that they secure their ticket before the opening date. Seats may be reserved on application at Chamber's Drug Store. There is no amusement tax this year.

Meet to Form Branch Of Canadian Legion

A meeting of Returned Men will be held in the Didsbury Opera House on Saturday afternoon, October 25th at 3 p.m., with the idea in view, of forming a branch of the Canadian Legion.

The meeting will be addressed by: Capt. Hudson, Provincial organizer; R. W. Wilson, President of the Association, and others.

It is hoped that all War Veterans, both Canadian and Imperial Armies, will attend this meeting, and hear what the speakers have to say, what the Legion has done, and what it is working for.

C.G.I.T. Concert, Most Successful

The concert given by the C.G.I.T. Girls in Knox United Church, last Friday evening, was one of the most successful affairs presented by this group. There was a good attendance and the audience seemed delighted with the numbers offered.

The program opened with both groups of the C.G.I.T. presenting their Initiation Ceremony.

Miss Kathleen Green, a very clever young elocutionist from Calgary, gave a number of selections, which were well received and numerous encores were called for.

A candle-lighting ceremony by the girls was very effective, as was also the skit, "That old-fashioned Mother o'mine," by the Junior Girls.

A lot of fun was created by the older girls, in the skit, "Portraits," which introduced a number of local celebrities.

The entertainment was brought to a close with a play, "What Men Live By," in which the girls exhibited considerable talent.

Lock Your Doors!

The Provincial Police are calling the attention of the public to the fact that all doors to residences should be locked, in view of the fact that there is a great number men, out of work tramping up and down the country, and that while the majority of these men are good and honest, there are some of them who could hardly be classed as such.

Mr. and Mrs. Troyer Have Golden Wedding

On Saturday last, Mr. and Mrs. S. Troyer celebrated their golden wedding, when a large number of friends called on them during the day to offer them congratulations. The visitors were regaled with tea and wedding-cake, which was provided for the occasion.

This worthy couple were married in Hamilton, Ontario, on October 18th, 1880. The occasion was a double wedding, Mrs. Troyer's sister being married the same day. After their marriage, and until coming west, they farmed near Woodbridge, Ontario.

Mr. Troyer came to Didsbury in 1893, and eighteen months later was joined by Mrs. Troyer and family. They were amongst the first settlers in this district, homesteading one-and-a-half miles east of town, and have helped develop this district from the raw prairie into a prosperous farming community.

They farmed on the homestead until about twelve years ago, when they sold out, and after spending a year visiting in their old home-town in Ontario, they moved into Didsbury, where they have since resided.

There were three daughters from this union, Mrs. P. Johnson, Mrs. Josiah Good, and Mrs. Sam Gibson, seventeen grandchildren, and four great-grandchildren.

During their life here, they have accumulated a host of friends, and have always been very highly respected in the community.

We join with the rest of the community in offering them our heartiest congratulations.

Alberta Cattle Are Shipped to England

The Dominion Department of Agriculture has arranged with a number of ranchers and breeders in the west for a shipment of cattle to Manchester, England. The whole boatload of 380 head has now been secured.

The shipment is expected to leave Calgary on or about October 20th, and sails from Montreal in the S.S. Manchester Citizen on October 30th. The shipment consists of two, three, and four-year-olds. An auctioneering firm will handle the cattle on arrival in Manchester.

'Fresh from the gardens'

Russia's Five-Year Plan

Under all normal conditions the people of Western Canada would display merely an academic interest in events transpiring and developments taking place in Russia, but for some time past, and to an ever-increasing extent, Russian policy has had a bearing and a definite effect upon the prosperity of this portion of the Dominion, in fact upon the whole business structure of Canada, as well as of other countries.

It is difficult to find out exactly what is taking place in Russia, as many reports are both confusing and contradictory, consequently it is not surprising that people in this country are still puzzled and uncertain in their minds whether Russia constitutes a real and permanent menace to Canada, not politically or in a military sense, but economically.

Certain things have, nevertheless, become fairly well established. For example, it is known that in October, 1928, Russia inaugurated what is known as the "Five-Year Plan" of national development which observers on the spot in Russia describe as "the most interesting economic experiment anywhere in the world."

On October 1, 1930, the second year of this experiment will come to a close. So substantial has been the progress made that now the slogan is: "The Five-Year Plan in Four Years." What is this "Five-Year Plan?" It was outlined by a Soviet Government agency over a year ago, and, in part, the plan—

"Provides for total capital investments in the five years beginning October 1, 1928, of \$33,000,000,000, or about two and one-half times the actual investments in the preceding five years. A goodly share of this will go for the construction of industrial plants and for the purchase of foreign equipment and machinery. The foreign-trade programme calls for imports of about \$3,200,000,000 during the period. Among the outstanding projects scheduled for construction, and in most instances completion, during the five-year period, are two tractor factories with an output of 40,000 units per year, each, an automobile factory with an output of 100,000 cars per annum, a score of steel mills to produce over 5,000,000 tons of steel per year, many chemical, textile, machine-building, electro-technical, paper, glass, leather, and other factories, as well as a dozen or more large power plants, many mines, etc."

That was the "Plan," but, according to a Moscow correspondent of the Manchester Guardian, the "Five-Year Plan" in many instances is already surpassing the figures expected to be attained. He says: "The first version of the 'Plan' called for the production of 22,000,000 tons of oil and 10,000,000 tons of cast-iron in 1933; now these figures have been revised upwards, respectively, to 38,000,000 and 17,000,000. During the current year 221 new industrial enterprises, built at a cost of approximately \$425,000,000, have begun to function, and the list of unusually large factories which have been completed comparatively recently, includes a tractor plant, an agricultural machinery factory, a paper mill, a pipe factory, two oil refineries, several electrical stations."

The "Five-Year Plan" also included what practically amounts to the nationalization of agriculture, and the erection of these huge tractor and agricultural machinery factories, oil refineries, etc., are all a part of this new agricultural policy. The Manchester Guardian correspondent in Moscow, further notes that "in collective farming, 25 per cent. of the peasant households have already gone over to the co-operative method, although the 'Plan' originally contemplated only 20 per cent. in 1933."

Russia is now dumping wheat, coal, lumber, into many European and other markets, further demoralizing the already badly demoralized world price for these commodities. The Russian Government is reported as having chartered a large number of vessels to convey wheat from Russia to England, Italy, and other countries, and that this wheat will be sold abroad regardless of price. The United States Government has charged that Russia has engaged in transactions on the Chicago grain markets to force down the price of wheat; the Canadian Government has secured power from Parliament to prohibit Russian imports into Canada; the League of Nations at Geneva, is discussing the effects of Russian policy on all other nations.

It is further alleged that under Soviet auspices this great "Five-Year Plan" is being carried out by poorly-paid labor, and much of it forced labor, even convict labor; that the standard of living has been definitely lowered; that food and even clothing supplies are sharply rationed, with the result that other countries, with higher standards of living and greater individual liberty of action, cannot begin to compete with Russia.

The Bolshevistic propaganda of Russia failed in its efforts to bring about world revolution, but its "Five-Year Plan" of economic development at home with a view to dumping huge quantities of goods and products of all kinds into world markets is, even before the "Plan" is one-half completed, having an adverse effect in all other countries, and further depressing already depressed business conditions throughout the world.

The farmers of Western Canada, who must depend for their success upon making profitable sales of their products in world markets, are among the chief sufferers.

When Food Sours

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been over-stimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid. The right way is Phillips' Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient and

harmless. It has remained the standard with physicians in the 50 years since its invention. It is the quick method. Results come almost instantly. It is the approved method. You will never use another when you know. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

How Saskatoon Is Favored

Saskatchewan City Attracts Many Important Gatherings

Saskatoon has been a much visited city this summer. Recent visitors included the 150 British medics, while on September 7th came the Sun Life special trains; on the 9th the Canadian Ticket Agents' Association and on September 12th the Dakota farmers—some of whom, it is pointed out, may decide to remain in the region. "Commissioner Joseph Holmes," says The Hub, "had to take special exercises to strengthen his right hand against the intensive period of welcoming the strangers within our gates."

THE ANAEMIC GIRL

Who Has Lost Her Charm and Beauty

"She seems to be losing her looks." This remark is often heard about girls who were once noted for their sparkling eyes, their rosy cheeks and their vitality. The cause is not far to seek—they have become anaemic; that accounts for the pallor and the loss of charm. The anaemic girl, if she neglects her health, may be a sufferer all her life.

Take heed, you pale, anaemic girls. Plenty of fresh air, nourishing food and rest will help you, but what you need most is good blood. Those wretched headaches; that fickle appetite and those terrible heart palpitations can only be banished if the blood is rich, red and pure.

Good blood—the kind that brings good health is created by Dr. Williams' Pink Pills. The whole mission of these pills is to build rich, red, health-giving blood. The pills are sold by all dealers in medicine or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

High Educational Standard

Canadian School System Impresses Educationists

Visitors to Canada are invariably impressed with the country's educational system, particularly if they be men especially interested in the subject. It is greatly to be doubted if any nation on earth excels our own in the matter of schools of all kinds. Our educational system is thorough always, standards are high and our graduates emerge from schools and colleges with diplomas that have always placed their services in great demand across the line.—Border Cities Star.

Do not allow worms to sap the vitality of your children. If not attended to, worms may work irreparable harm to the constitution of the infant. The little sufferers cannot voice their ailment, but there are many signs by which mothers are made aware that a dose of Miller's Worm Powders is necessary. These powders act quickly and will expel worms from the system without any inconvenience to the child.

Give the Devil His Due

An old Scottish woman, who had never been known to say an ill word about anybody, was one day taken to task by her husband. "Janet," he said impatiently, "I do believe ye'd say a guid word for the devil himself." "Ah, weel," was the reply, "he may na be sae guid as he might be, but he's a very industrious body."

The Man With Asthma, almost longs for death to end his suffering. He sees ahead only years of endless torment with intervals of rest which are themselves fraught with never ceasing fear of renewed attacks. Let him turn to Dr. J. D. Kellogg's Asthma Remedy and know what complete relief it can give. Let him but use it faithfully and he will find his asthma a thing of the past.

Over a Hundred Varieties

A single tree with approximately 125 varieties of apples has been grown near Martinez, California, by George Upham. It took more than twelve years of experiments to obtain the phenomenon. Upham has been grafting branches to the original tree since 1918. In the spring the grafted limbs bud at different times with blossoms in dozens of shades.

Britain's Youngest Aviator

Miss Winifred Jess Drinkwater of Paisley, Scotland, is Britain's youngest aviator, having just received her pilot's license at 17, the minimum age for a British pilot. In flying solo she handles her machine like an expert. S. Baldwin, secretary of the Scottish Flying School, says she will be a great flyer.

Minard's Liniment has a hundred uses.

W. N. U. 1857

Her Two Children Had Summer Complaint

Mrs. J. J. MacDonald, Glace Bay, N.S., writes:—"I am the mother of six children, and would not be without a bottle of Dr. Fowler's Extract of Wild Strawberry in the house. My two youngest were very sick with summer complaint, and there was nothing I tried could equal that remedy, and I had tried most everything, but they could get no relief. 'Dr. Fowler's' made a change in both of them in less than two hours."

On the market for the past 85 years; put up only by The T. Milburn Co., Ltd., Toronto, Ont.

Car Elaborately Equipped

Fittings in Limousine of Jugo-Slavian King Very Complete

A Packard sedan limousine, recently delivered to King Alexander, of Jugo-Slavia, is said to be one of the most elaborately equipped automobiles in Europe. The space under the glass partition separating the rear compartment from the driver's space is divided into a number of compartments. A large locker in the centre is fitted with a leather lunch kit, equipped with a complete silver and gold table service. In a double compartment at the right are thermos bottles for warm foods and a large toilet case. Thermos bottles for hot or cold liquids are fitted into a cabinet at the left of the centre locker, and in the top of this space are a first-aid kit and a large cigarette case. A built-in compartment for the King's sword extends across the top of the three compartments, and the lid, which protects the sword against dust, becomes a shelf when closed. Immediately in front of this is a tray to accommodate road maps.

Minard's Liniment aids tired feet.

Source Of the Thames

Seven Springs in Cotswold Hills Feed World's Most Famous River

How many people—even among the millions who live upon its banks—could say offhand where the source of the Thames was to be found? The fact that so few of us know anything about the beginnings of the world's most famous river is reflected in the statement, that, until recently the Thames had its source in a rubbish dump. Now the rubbish has been cleared away, and visitors to the source will find a little pool in a wood hollow, with, at one side, a stream gushing out. It is Seven Springs, the source of the Thames; but there is nothing to tell anyone that this is the case, and in the quiet Cotswold Hills, where Seven Springs is situated, we are not thinking of London and London's River. However, a plan is now on foot to lay out the site in a worthy manner and to build a fountain through which the Seven Springs may flow.

British Capital For Alberta

Anglo-Western Oils Limited To Commence Development Work

Five million dollars of British capital, organized under the name of Anglo-Western Oils Limited, with a federal charter and headed by Sir Edward Manville, chairman of the Phoenix Oil and Transport Company, and of the Daimler Company, both of Great Britain, has been made available for Alberta oil development, according to an announcement made in Calgary recently.

The announcement was made by J. C. Dallas, managing director of Calmont Oils Limited. Mr. Dallas said the company had acquired 490,000 acres in Alberta and two wells would be sunk immediately in the Milk River area.

"I notice that customer you just attended to didn't buy anything, yet he seemed pleased," said the eagle-eyed floorwalker. "What did he want to see?"

"Me, at 8 o'clock tonight," replied the pretty clerk, blushing.

How a disease wipes out human beings who are not resistant to it, was shown when influenza was introduced into a Labrador community by 360 Eskimos, causing the death of 300.

High Protein Content Of Western Wheat Is Revealed In Tests Just Completed

Canada's current wheat crop has a very high protein quality of grade and shows higher gluten content than yields of the past three years. It is revealed in tests just completed for the Canadian Grain Commission.

Result of the tests, conducted by F. J. Birchard, commission chemist at Winnipeg, were reported yesterday to F. G. T. O'Hara, deputy minister of trade and commerce. Summing up, it may be stated the general baking quality of the present crop is fully equal, if not superior to that of any crop tested since inception of the commission laboratory in 1913, says the report.

"The quality of the protein (gluten) is excellent and the average amounts of 13.4 per cent. compares very favorably with that found in previous years," Mr. Birchard reports. "The average for 1929 was 15.3 per cent., for 1928 was 12.3 per cent. and for 1927 was 11.4 per cent."

"The high protein content of excellent quality, the unusual dryness of the wheat and the excellent baking quality of this year's crop should be of special interest, particularly to the millers of England, France and Germany, since the crops of these countries are reported to be suffering severely from the effect of excessive moisture with consequent damage to the quality of the grain."

"Over 60 per cent. of the crop received to date in Winnipeg this year, graded either No. 1 Hard or No. 1 Northern, 23 per cent. graded No. 2 Northern, and only three per cent. No. 3 Northern. Very little grain graded No. 3 Northern or lower is being received at the present time. Practically no tough or damp cars have been received."

"The weight per bushel of the different grades is practically the same as that of last year, though the weight of the No. 3 Northern as received to date is lower."

"The comparative yield of flour from the different grades is about the same as last year with the exception of that from No. 3 Northern, which on account of the lower weight per bushel, is somewhat lower."

Practically all the wheat is sound and mature, bringing little difference between the baking quality of the grain. Samples from which the tests were made were gathered from the three provinces of the prairies, and are characterized as fairly representative of the crop as received to date. Relatively little foreign wheat is present in the samples tested, however, and character of Nos. 3 and 4 Northern may change somewhat as to weight and flour yield."

The report approves standards for Nos. 1 Hard, 1 and 2 Northern, but sets aside standards for Nos. 3 and 4 Northern and Nos. 4, 5 and 6 Special. This, it is stated, is due to the fact that it is considered probable that some frosted wheat from the northern districts may appear later.

The three special grades in the tentative standards, it is mentioned, are included to take care of a certain amount of sound wheat, but of low weight per bushel. Flour yield from these grades is greatly reduced, and the color is very yellow, but baking quality is otherwise excellent.

New Mining Regulations
Mining syndicates and individual prospectors are being advised that new mining regulations for Manitoba, since the taking over from the Federal Government of the natural resources, the assessment work requirement is now only 25 days instead of 40 days.

Crop Rotation

The Most Efficient Way in Which To Maintain the Fertility of the Soil

The maintenance of soil fertility is absolutely essential to successful farming. Unless the soil is in a fertile condition it is impossible to produce large crops and large crops are a prerequisite to profitable farming. The adoption of a good system of crop rotation involves no additional expense and is the most effective way in which to maintain the fertility of the soil and thereby increase the yield of farm crops. In addition, crop rotations assist in the control of weeds, and help to keep in check insect pests and fungous diseases. The system of the farm, too, is better distributed throughout the season when suitable acreages of various crops, planted and harvested at different times, are grown in rotation.

Winnipeg Newspaper Union

(By Eva A. Tingey)

FOR MANY FIGURES

All Tingey models are created and sketched in Paris and the patterns are made in New York. A stunning sports dress this, and suitable for many figures. It is modish and chic for the normally built woman, and will also have a slender effect for the heavier type. For the short girl it is snappy too, as its long line bodice cut, hip point and skirt panel all have length giving qualities.

Note the smart new vestee, too, which buttons up the front and instead of tucking in as such affairs generally do.

Black wool, georgette, silk, marocain, or white spotted crepe with satin trim made in vestee will make a nice, dressier scheme for the heavier woman.

This pattern may be obtained in sizes 14 to 20 and 21 to 40. It is ready for immediate delivery. It is hand cut.

Send 25 cents (in stamps or coin) to Fashion Bureau. Write carefully and plainly your name and full address, the number of the pattern and the size you want.

Guard Against Gases Forming In the Silo

Two Poisonous Gases Which May Occur In Any Silo

Before entering the silo the farmer or any one working for him should make sure that no deadly gases are present, is the admonition of silo experts of the Dominion Department of Agriculture.

At Herron, North Dakota, the other day the Neidhardt family, father and four children, had their lives snuffed out by what was reported to be Methane gas. The sheriff who attempted to recover the bodies was overcome and barely escaped with his life, after his son had made two attempts to get his father out of the silo.

Methane and carbon dioxide are the two poisonous gases which are likely to occur in any silo. They have their origin in the decomposition of organic matter. Methane CH₄ is an odorless, inflammable gas which occurs naturally as the product of the decomposition of organic matter, and is frequently met with in marshes and mines, being more familiarly known as marsh gas. Carbon Dioxide CO₂ is a heavy colorless irrespirable gas which extinguishes flame. It is produced by the action of acids on carbonates, through fermentation, and by the decomposition of organic substances.

Both these gases may be present in the silo and owing to the fact that they are heavier than air as they accumulate, they force air away from the top of the silo.

As neither Methane or Carbon Dioxide will degenerate within a few days, it is always well before entering a silo during the filling season, to run the blower a few minutes to insure an adequate circulation of air. At other times, a lighted lantern should be lowered into the silo to insure that no gas is present. If Carbon Dioxide is present the flame will immediately go out.

There is just as much danger from poisonous gases in the silo as there is in an old well but the danger is one which may be easily guarded against and is overcome by an adequate supply of fresh air. As ensilage is made from the top of the silo care should be taken to see that the doors are open to allow free ventilation. Fresh air should be supplied as directly to the top of ensilage as possible.

A Big Business

Agricultural Wealth Of the Dominion Reaches Nearly Eight Billion

Few people appreciate the dollar value of agriculture in Canada, or realize that it is really a big business. The Dominion Bureau of Statistics estimates the agricultural wealth of the Dominion as for the year 1929, at the huge sum of \$7,728,000,000. This figure is made up out of the following estimated values: Lands, \$3,361,000,000; buildings, \$1,282,000,000; implements and machinery, \$1,041,000,000; livestock, \$864,167,000; poultry, \$63,854,000; animals for fur, \$19,777,000; and agricultural production, \$1,667,218,000.

A Cow With a Record

Belvedere Dood Ruby-82632, of the herd owned by the Canadian Pacific Railway at Strathmore, Alberta, made the third highest mature record in Canada in 1929, being exceeded by one cow in the Strathmore herd and an outstanding cow in Saskatchewan. On June 14, 1929, she finished a record of 27,892 pounds of milk and then went out on the Show Circuit, taking first prize at Brandon and first at Vancouver, Victoria and New Westminster. What she did is seen by comparison with the milk record

Moist Heat As a Health Factor Should Be Considered In Heating Homes During Winter Months

A family's health and comfort during the winter months, in this or any climate, depend on proper heating more than any other single factor. Family physicians will confirm this. Knowing the essentials of healthful heat is therefore necessary if a householder is to act wisely on this important question.

A healthful summer atmosphere is made up of temperature, air motion and humidity. Temperature alone is not the major problem of home heating, however. The first requisite for healthful, artificial heat is that it provides sufficient humidity to meet the requirements of the body. This is recognized and cannot be ignored except at the expense of health and comfort. Hot dry air in homes may be directly blamed for the 30 per cent. increase in the mortality rate during the winter months. The importance of moisture in the air breathed cannot be stressed too heavily.

Moist heat as a health factor should be given first consideration when making a choice of the system to be installed in a home, for upon it will depend the health of the family. Medical authorities recommend that room temperature never exceed 70 degrees Fahrenheit. To remain in an atmosphere heated above this point lowers both vitality and resistance and weakens the body's ability to cope with the contrast between indoor and outdoor temperatures.

There are still other benefits from correct humidity besides the health of the family, and that is the economy in fuel bills. It costs more to raise the temperature from 70 to 75 degrees than from 60 to 70 degrees, and moist air at 70 degrees is far more comfortable than dry air at 75 degrees.

In the old days it was thought that the atmosphere in the home became vitiated of its oxygen as the air was breathed and charged with carbon dioxide exhaled from the lungs. Recent conclusive experiments disprove this. Occupation of the home assuredly decreases the amount of oxygen therein and increases the amount of carbon dioxide, but the results of this are so negligible that the differences can hardly be measured or detected.

In this country of cold winter climates there are three distinct types of heating equipment and each has its advantages and disadvantages. The stove, while crude in many respects, has many advantages over some types of apparatus. The most common types of equipment are the radiator—which may be either steam, hot water or vapor—and the register, which is used on many and varied kinds of warm air plants.

The operation of these different types of plants affect the occupant of the home. The radiator type heats the home by means of the air in each individual room passing over each in-

dividual radiator and picking up what heat it can as it passes over. When the fire is high, naturally the radiator is hottest and the air moves faster in the room, which causes the temperature to rise more quickly, and as the fire burns lower the air soarsly moves. These radiators and connections must be absolutely winter and moisture tight or they will leak, and except for the vent, on the steam radiator, there is no chance of any humidity unless supplied by pans or other devices attached to the radiator.

Neither is there any possibility of air circulation except by the action caused by the heated radiator, as mentioned. Somewhat the same action is obtained with the average type of warm air furnace, except that the body of the furnace over which the air passes, by being conducted through the return air pipes to the furnace casing, is much hotter than the radiator, and the air is expanded to a greater degree and purified by being intensely heated, and creates much more action than when passing over the radiator. It has been proven by medical men that a warm air furnace can be operated in contagious hospitals with scarcely any danger of distributing germs to adjacent rooms. This, due to the temperature of the air as it passes the hot furnace and the rapid circulation it attains. We all know from experience that running water will purify itself when in motion in a very short distance.

Holding Doesn't Pay

Holding Eggs For a Rise in Price Considered to Be Bad Practice

The Poultry Division of the Dominion Department of Agriculture calls attention to the fact that it doesn't pay to hold eggs for a rise in the market. Past experience proves that holding eggs is a decidedly unwise practice and does only harm to the egg trade in general, particularly when eggs are held under any condition other than up-to-date cold storage. The old practice of country stores holding eggs for mixing with fresh stock on a favourable market has almost entirely disappeared, and, in any event, grading shows the old eggs up at once. Consumers who pay the price for real fresh eggs expect to get what they buy. Eggs should be shipped promptly to market at all seasons of the year.

Buy Graded Beef

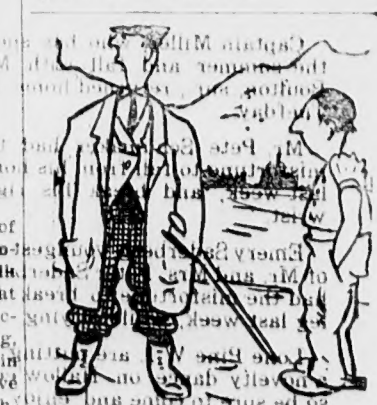

Blue Brand Grade Is Preferred By the Average Customer

The Beef Grading Service of the Dominion Department of Agriculture is stimulating public interest in the buying of good beef and each week shows more conclusively that where quality counts, beef is bought by grade. Buying beef by grade is the only way you can be sure of getting beef you will like. The grade "Choice" is always branded in red, and the grade "Good" in blue. Blue brand is the grade preferred by the average customer and in this grade in greatest supply.

Dealer: "It's a genuine antique, sir."

Customer: "But you are asking a fearful price for it."

Dealer: "Well, sir, look how wages and the cost of materials have gone up."

WHO WILL IT RELIEVE

Although \$20,000,000 has been appropriated for relief of the unemployed, that is merely the preliminary step. Many newspapers and individuals are expressing doubt as to the extent to which this will bring relief, to those in most desperate straits. The unemployed who are the most unfortunate in securing employment and who are likeliest to remain a burden to society are the unskilled workers.

The skilled workman may suffer from seasonal unemployment. At the present time he may find things slack, but he has his "trade" which normally keeps him going.

When the contracts for the different public works, considered in the relief program, are allotted, the contractor will want to secure good workmen. He will be obliged, if he is going to come within his estimates, to secure the most skillful men he can. It is unlikely that the "raw laborer" will have first call, and he may still remain a problem to be met. With the highly mechanized, skilled, modern age, mere brawn and willingness is not sufficient to ensure work, and there are many who are in the pathetic state of knowing no trade and having no opportunity to learn one.

**Convocation Of
The Bible School**

The fifth annual opening of the Mountain View Bible School takes place in the M.B.C. Church, Didsbury, on October 28th and 29th.

The following program has been arranged: Tuesday: 2-30 p.m.: Devotional service; 7-30 p.m.: Missionary service, Miss Maggie Finlay, speaker. Wednesday: 10-30 a.m., 2-30 p.m. and 7-30 p.m. Speakers: Mrs. M. A. Finlay, Superintendent of Beulah Home, Rev. H. Edwardson, Superintendent of Hope Mission, and Rev. J. K. Smith, Superintendent of the Bible Society, Edmonton.

You are cordially invited to attend all these services.

Burnside Notes

Captain Miller, who has spent the summer and fall with Mr. Boulton, snr., returned home on Tuesday.

Mr. Pete Schumaker had the misfortune to fall from his horse last week, and break his right wrist.

Emery Saderberg, youngest son of Mr. and Mrs. Peter Saderberg, had the misfortune to break his leg last week, while plying.

Lone Pine W.I. are putting on a novelty dance on Halloween, so be sure to come and enjoy an evening of frolic and fun.

The dance in Lone Pine Hall drew only a fair crowd on account of the roads and inclement weather. Everybody reported a good time.

Burnside U.F.A., at their next meeting, November 10th, will

LOCAL & GENERAL

Scratch Pads may be obtained at the Pioneer Office, 2 for 5 cents.

Mrs. Harmer made a business trip to Calgary on Monday.

Miss Freda Moon spent Sunday at the Fulkert farm.

Mrs. Bert Fisher returned on Friday, after a week's visit with friends in Calgary.

Mr. R. Baxter of Calgary, called at Mr. and Mrs. Allen Hunspergers on Wednesday, October 16th.

Miss M. McLaughlin, of the Calgary teaching staff, spent the week-end with Miss M. Saugstead.

Messrs. A. Brusso, J. A. McGhee, J. McDougall, H. Morgan, and J. Clarke, went to Calgary on Monday evening.

Mr. and Mrs. G. W. Smith, Miss Lucille Smith, and Mrs. F. Kaufman were Calgary visitors on Saturday.

Miss M. Leadbetter, R.N., and Miss M. McLeod, R.N., spent the week-end with the former's father, Mr. W. Leadbetter.

Mr. J. O. Spackman, of Ninette, Manitoba, who spent the week-end with his daughter, Mrs. J. C. Hembling, returned home on Tuesday.

A number of young people were entertained at the home of Mr. and Mrs. Abe Snyder on Sunday evening.

Mr. Gilbert M. Reist and Miss Grace Hunsperger spent last week in visiting friends and relatives in the Cremona and Westcott district.

Mr. Rodgers, of Calgary, is relieving Mr. Hembling, principal of the High School, who is taking a leave of absence for the time being.

Ward Keith and Eddie Ford made a trip to Torrington on Friday evening. On the way home, they met a black and white kitten in the road. Eddie says they missed it, but did they?

Miss Myra Herber returned this week from New Dundee, where she has been visiting her parents, Mr. and Mrs. J. Coleman. She reports having had a fine holiday, and will be teaching again in the Bible School this winter.

We are in receipt of the sales catalogue for the Calgary Livestock Show, which will be held from November 3rd to 5th. We notice that Hughes Bros. have a large entry of Oxford rams in the sale.

An agreement has been reached between the Royal Bank, and the Bank of Montreal, by which the branch of the Royal at Carstairs will be closed out at the end of this month. This leaves Carstairs with only one bank, the Montreal.

Mr. Bury, of Edmonton, who was erecting lightning rods on a house west of town, had the misfortune to fall from the roof and injure his leg on Monday. He was taken to the hospital, but was able to leave for home the next morning.

The N. B. C. Young Peoples' Society held their monthly meeting at the home of Mr. and Mrs. Mel. Shantz on Friday evening, October 17th, some forty members being present. After the usual preliminaries, Miss Maggie Finley, missionary on furlough, gave a very interesting talk on her home life in Africa.

Mrs. Harold Davis, of Calgary, with her little son, Allen, were the guests of Mrs. Sharp for a few days, and Mr. Davis, with Mr. and Mrs. Bill Kelly, managers of Famous-Lasky, and Warner Bros., were the Sunday visitors of Mr. and Mrs. Sharp.

Mr. Dan Dippel, who has been in attendance at the General Conference of the Evangelical Church at Milwaukee, Wisconsin for the past two weeks, is expected to give his report next Sunday morning. Mr. Dippel was lay delegate representing the North-west Canada Conference.

hold an open debate, "Resolved that the present final examinations are not a fair basis for promotion." Everybody is invited to come and participate in this debate. The social committee is planning a dance for November 14th.

Melvin Notes.

Bob is making a strong comeback, nurses have winning ways.

A number of young folk were skating on the Dog Pound last Sunday.

Eddie and Vic have a new remedy for flat tires. They were seen last Sunday patching the hole with rope.

Fritz has been spending the past week in the east country. We wonder what the attraction is.

Miss Grace Rosenberg and Mr. Wilfred Klein spent Sunday at the home of Mr. and Mrs. E. E. Krebs.

Brownie thought he knew all about skinning a certain animal but he changed his mind and came to the house after he got the "start."

Brownie has been spending his spare time looking for model T Ford parts. The few that did not drop off from age were broken when he forgot to drain it last cold spell. He says when he has all the parts gathered up he will start digging for oil.

Miss Mildred Brown and her sister Gladys of Spring Bank school south-west of Calgary, spent the week-end with Mr. and Mrs. W. Davies.

Fritz soon got tired of batching, guess he has left our burg for we neither see light or smoke at his home.

Mr. and Mrs. Olson and daughter, also Mrs. Olson, mother of A. Olson and G. Carlson, visited at the home of Mr. G. Carlson last week. Mrs. Olson is remarkably smart for a lady of 82 years. The district will remember her as one of Melvins, pioneers and wish her good health and happiness in her old days.

Word has been received from Walton N. S. that Mrs. Wyman O'Brien has been in the hospital at Windsor N. S. since September 27th, when she underwent a very serious operation. The friends here will be pleased to know she is improving nicely and will soon be back at Walton, N.S. again.

Mr. J. A. Smith, Inspector of High Schools, spent a few days last week, inspecting the local High School.

Town Planning In Alberta

Being a Series of Short Articles Explanatory of the Provisions Of The Alberta Town Planning Act, and Regulations Thereunder.

By

HORACE L. SEYMOUR,
Provincial Director of Town Planning.

Article 8.

School, and Other Grounds.

New rural schools must now have inside-toilets, and the endeavour of the Provincial Town Planning Office is to advise all rural school authorities to make provision in old schools for inside-toilets; to enlarge if necessary, the school grounds; to adequately provide for recreation facilities, and then logically, to consider a planting and beautification program.

It is found necessary to stress the fact that beauty must be founded on order, and to urge that planning is necessary for effective planting, which should not merely be used to cover the mistakes of bad planning.

In the small centres of population, a local horticultural society may play an important part in municipal development by interesting itself in a public planting program, doing in a small way, what the Park Board, or similar body does in the city. In a similar way, while the small town or village may not aspire to an inspiring "civic centre," there might be possibilities of something really fine in the proper treatment of school grounds as a community centre. Several such plans have already been prepared.

ECONOMY

Beginning at the one acre, then to the now usual three acres, the need of larger school grounds, even for rural districts, is being realized. Several school districts boast areas over the four or five acres, considered but a desirable minimum, especially if community recreational needs are also to be provided for.

Application for school ground surveys, from which a plan of development can be prepared, should be made to the Director of Town Planning, Parliament Buildings, Edmonton.

On request, surveys are also made, and plans prepared, of hospital and other institutional grounds.

Imperial Conference Delegates Sail

The Canadian Pacific liner Empress of Australia might almost have served as a Cabinet Council room during its last voyage to England with the Prime Minister of Canada and several members of his cabinet as passengers. There was so great a crowd at the pier in Quebec that photographers had

to go to Father Point to get pictures of the party.

Above are several groups made while the ship was on her way. I. The Premier and his sister Miss Mildred Bennett shake hands with Captain R. G. Latta, commander of the Empress of Australia. II. Prime Minister G. Howard Ferguson of Ontario and

Mrs. Ferguson. Mr. Ferguson said that while he was not attending the Imperial Conference he "hoped to listen at the keyhole." He will open the Ontario Building in London during his visit. III. Hon. H. H. Stevens, Minister of Trade and Commerce, who is an official delegate. IV. Hon. Hugh Guthrie, Minister of Justice, also a delegate.

PLEASURE WRIGLEY'S

The tingling taste of fresh mint leaves is a real treat for your sweet tooth.

Affords people everywhere great comfort and long-lasting enjoyment. Nothing else gives so much benefit at so small a cost.

It is a wonderful help in work and play—keeps you cool, calm and contented.

Wins First Prize For Layer Cake

Above is a photograph of Mrs. W. McKenzie, 9 Fernwood Park Ave., Toronto, to whom was awarded the first prize for layer cake, at the Canadian National Exhibition, Toronto. There were a large number of entries of cakes of various kinds and Mrs. McKenzie not only won first prize for iced layer cake, but also for muffins and small cakes. We give below the recipe used by Mrs. McKenzie for the prize-winning cake.

Golden Layer Cake: 1 1/2 cup butter; 1 cup sugar; yolks of 6 eggs; 1/4 cup milk; 1 1/2 cups flour; 4 teaspoonsful Magic Baking Powder; 1 teaspoonful of orange extract. Cream butter and sugar, add well beaten yolks and beat again with butter and sugar until very light. Sift flour and Magic Baking Powder together and add to first mixture alternately with milk. Beat lightly for about one minute, put into greased layer pans and bake. Temperature 400 degrees Fahrenheit. Time about 20 minutes. Put together with lemon filling and ice with boiled frosting.

Lemon Filling: 1 lemon and rind; 1 cup cold water; 1 cup sugar; 1 egg; 1 tablespoonful flour. Beat lemon-rind and egg together. Stir in lemon juice and sugar. Dissolve flour in water. Cook in double boiler till it jellies and spread.

Boiled Frosting: Dissolve a cup of granulated sugar in 1/4 cup of hot water. Wash down the sugar from the sides of the pan, cover and let boil three or four minutes, uncover and let boil to a rather firm soft ball stage. Pour in a fine stream on the whites of 2 eggs, beaten dry, beating constantly meanwhile. A few Maraschino cherries chopped and added to the frosting gives a delicious and pleasing flavor.

Douglas' Egyptian Liniment makes the finest blister known. Invaluable for rheumatism. Leaves the hair roots in natural and healthy condition. Hair comes back. No scar remains.

Tour To the Orient

Business Men To Sail On Chamber Of Commerce Tour To Japan and China

Several business men of Edmonton and Calgary have already signified their intention of joining the Canadian Chamber of Commerce tour to the Orient, which sails from Vancouver on the "Empress of Asia" on October 16th. The tour will include a visit to Japan and reception by the Japanese Government, and trips to Shanghai, Nanking, Hong Kong and Canton, and the members will be back before Christmas. The tour is not limited to members of Chambers of Commerce and Boards of Trade, but is open to the general public as well.

Athletes recommend Minard's Liniment.

School For Flin Flon

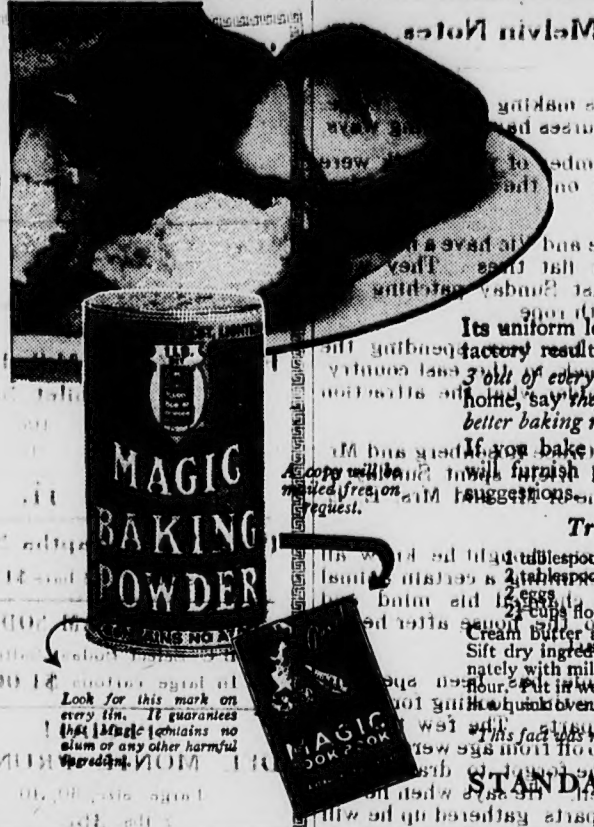

Mining Town In Northern Manitoba Town To Have Public School

Efforts of the mining town of Flin Flon to have modern public school instruction this year have at last been successful, according to word received in The Pas. Equipment is now being installed in the class rooms, and it is expected that work will begin within ten days.

Financial plans are about complete. With grants from the province, the town, and with the aid of the Hudson Bay Mining and Smelting Co., grades up to eight will be taught this year.

It has been decided to engage Miss Doris M. Foster, of Winnipeg Beach, to teach the primary grades, and Miss Margaret Sutherland for grades three, four and five.

In days of yore if anybody missed a stage coach he was contented to wait two or three days for the next one. Now he lets out a squawk if he misses one section of a revolving door.

Recipes For This Week

(By Betty Hamilton)

BREAKFAST MUFFINS

2 cups special cake flour, sifted.
4 teaspoons baking powder.
1/2 teaspoon salt.
1 egg, well beaten.
1/2 cup milk.
4 tablespoons butter or other shortening, melted.

Sift flour once, measure, add baking powder and salt, and stir again. Combine egg and milk and add to flour, beating until smooth. Add shortening. Bake in greased muffin pans in hot oven (400 degrees Fahrenheit), 25 minutes. Makes 10 muffins.

BAKED FISH

1 average, helping, filleted, flounder, fresh haddock or whiting.
2 tablespoons butter.
Salt and pepper.
1 lemon.

Grease a plate and lay the fish on it with the skin side upwards. Put in the oven five minutes and the skin can be easily removed. Melt butter in a flat pan, lay fish on it and place in hot oven 400 degrees Fahrenheit, eight to ten minutes. Baste twice while baking. Remove season and squeeze lemon juice over. Serve hot.

To have the children sound and healthy is the first aim of every mother. They cannot be healthy if troubled with worms. Use Worm Expeller.

New Market for Apples

Trial Shipment of Apples Being Made From Okanagan Valley

A new market for Okanagan Columbia apples in Egypt is being opened up by a trial shipment made, under arrangements contracted by the provincial department of agriculture.

This shipment will consist of 2,000 cases from the Okanagan Valley at a price to net the growers a profit which would be small in a domestic market but satisfactory in an export market. The agricultural department believes that Egypt will offer a large market for British Columbia fruit in the future and is anxious to cultivate this business. A few apples from this country have found their way into Egypt before, but the market has never been built up in a big way.

In many parts of Africa there is a tree which bears large seeds resembling huge sausages.

A Shaving Lotion

When mixed with sweet oil, Minard's serves as an after shaving lotion and antiseptic. Soothes and freshens the skin.

MAGIC BAKING POWDER

never varies

Its uniform leavening qualities give the same satisfactory results with every baking.

Three out of every four Canadian housewives,* who bake at home, say they use it because it does give consistent, better baking results.

If you bake at home, the New Magic Cook Book will furnish you with dozens of attractive baking suggestions.

Try this Recipe for Muffins

1/3 teaspoon Magic Baking Powder
1 teaspoon salt
1 cup sweet milk

Cream butter and sugar. Add eggs one by one, beat well. Sift dry ingredients together and add to first mixture alternately with milk. If batter not stiff enough, add a little more flour. Put in well-greased muffin pans and bake for 20 minutes.

Language Dying Out

Manx Language Disappearing On Isle of Man

The language of the Isle of Man is dying. Visitors to the island this summer who hoped to hear Manx spoken on all sides, have been disappointed. The simple truth is that out of 50,000 inhabitants of Man, fewer than 1,000 have any working knowledge of their native tongue, and of this number probably no more than 100 can lay claim to be really "Manx" people—able to speak only the Manx language. These Manx men and women who are able to talk fluently in the language of the island are now elderly, and the last of the Manx language will successfully survive another generation.

The story of the Manx language is an interesting one. The language was brought to the shores of Man by Westward-ramming Celts in pre-Christian days, and it lived and flourished until the end of the eighteenth century. In 1774, for example, there were 40,000 inhabitants of the Isle of Man. And hardly any of them knew anything of English. Manxmen who left the island to join the Navy or foreign-going ships were regarded as complete foreigners.

The Manx, indeed, were an individual nation. Their Bibles and Prayer books were printed in their native tongue, and their children learned to read in their schools. In 1840 came the last issue of the New Testament in Manx—and the decline of the Manx tongue seems to date from that year.

Towards the end of the nineteenth century, by which time there were regular and rapid steamship sailings between Man and the mainland—the number of Manxmen able to speak English had grown enormously. The number of people able to speak only Manx had disappeared to 190.

The holiday habit has been the undoing of the Manx language. Every year close on 500,000 Englishmen and Scotsmen and Irishmen holiday there. The native tongue has been unable to hold out against this invasion.

Strength Of Canadian Woods: A comparison of strength values of wood of sugar maple and yellow birch shows that sugar maple is considerably the stronger in the green condition, whereas after seasoning, they are of approximately the same strength. This is revealed through publication of results of the physical and mechanical properties of Canadian woods by the Forest Products Laboratory of Canada, Department of the Interior.

Let Boys Choose Vocation The Farmer's Advocate says that the crusade to "Keep the Boy on the Farm" has pretty well spent itself. It was hardly to be expected that it would be a success. All boys born and raised on the farm are not partial to farm work, and some of the best men in other vocations in life in the world come from the farm. The wisest plan is to permit the boy to choose his own vocation.

Alberta Dairy Record

East-Neer 95 Creameries Produced Sixteen Million Pounds Of Butter

The dairy record of the Province of Alberta is an encouraging one. In 1912 the province had only 53 creameries producing a little over 3,000,000 pounds of butter. Last year there were 95 creameries with an output of 16,000,000 pounds. In 1912 six cheese factories produced but 40,000 pounds of cheese, while last year ten factories produced over a million pounds.

DO YOU SUFFER WITH HEADACHE?

So easy to get quick relief and prevent an attack in the future. Avoid bromides and dope. They relieve quickly but affect the heart and are very dangerous. They are depressing and only give temporary relief; the cause of the headache still remains within. The sane and harmless way. First correct the cause, sweeten the sour and acid stomach, relieve the intestines of the decayed and poisonous food matter, gently stimulate the liver, start the bile flowing and the bowels pass off the waste matter which causes your headache. Try Carter's Little Liver Pills. Druggists 25c red pkgs.

Find Early Coins

Interesting Discovery In Wales Of Gold Coins Minted In 1340

Thirty golden nobles, in perfect condition and apparently fresh from the Mint where they were struck to celebrate the defeat of the French fleet by Edward III, at Eury in 1340, were discovered recently on the edge of an ancient road leading from Taliesin, Cardiganshire, to the Dovey Estuary, where a ferry in olden days carried travellers across to North Wales.

The coins depict an English warship breasting the waves and surmounted by the English coat-of-arms and the King's head.

Pure Bred Sire Areas

Twenty-eight rural municipalities in the Province of Saskatchewan have been established as pure-bred sire areas, which means that these areas have become entirely free of scrub sires.

Rheumatism?

Quick relief from rheumatic pains without harm:

To relieve the worst rheumatic pain is a very simple matter. Aspirin will do it every time! It's something that you can always take. Genuine Aspirin tablets are harmless. Look for the Bayer Cross on each tablet.

CHAPTER I.

When, after years of slavery to the whims of a hard old uncle, Nicholas Hastings went forth on his quest for freedom, he started tramp-wise, his belongings tied in a blue-checked handkerchief which he had bought for the occasion. For years he had foreseen this departure from the home of his fathers—the haughty farewell he should bestow upon an irate uncle—the tears of his gentle Aunt Nettie when he took her in his arms. But Fate frustrated those plans. His patient little aunt had been laid away in Elmwood Cemetery two months before; and only a week ago his uncle had followed her, as if, Nick thought with grim and sacrilegious humor, he was loath to let her enjoy a peaceful residence in her Heavenly Mansion.

So there were no farewells to say. Instead, Nick left by the back door (because he didn't want Selina Smith, the village gossip, to see his stick and handkerchief), and stood for a moment looking off at the familiar landscape.

He had always loved the view from this little porch. An orchard sloped gently to a green interval, through which a sleepy river travelled to the sea. One wouldn't have dreamed that the house stood on a dusty thoroughfare. From here were visible only "green pastures and still waters." Nick could remember sitting here with his mother on summer evenings, and after his mother's death, with old Aunt Nettie. For a moment a wave of tenderness for the place swept over him; then youth flooded back with an intoxicating exhilaration. He slipped the door key into his pocket, and with no tinge of regret vaulted the stone wall and strode across the orchard, where, once beyond the eyes of curious neighbors, he would strike into the broad highway.

Free! No more tolling over ledgers in that stuffy corner of the First National Bank! No more horrible deceit when he got a raise, for fear his uncle would claim it for added board. No more stifling of natural impulses. How had he endured those years?

"I've been a slave," said Nick, pausing beneath an ancient apple tree, "but I'm a slave no longer. I can conquer the world!"

Then, because he knew he was behaving like a foolish little boy, he laughed at himself, and reaching up, picked a of spray apple blossom, breathing deeply of it.

"May!" he exclaimed. "May in New England—and I'm free! Gee! how I've longed for just this moment—longed to start out with no cares or responsibilities—without even a destination, and all my possessions in a blue bandanna! As Gay would say—"

He stopped, suddenly, at an amazing thought. He had forgotten to say good-bye to Gay! What a cad he was—especially when she was alone in the world like himself. He might send her a postcard—but no, that wasn't fair. Gay had always sympathized with his dreams and encouraged him

to believe they would come true, as they had. In these last busy days of settling affairs, he had—forgotten her.

"I'm an ungrateful scoundrel," he told himself; and though it meant retracing his steps, and the risk of passing Selina Smith's back windows, he faced about immediately, and was rewarded by the sight of a pink-clad figure bending above some budding jonquills. Nick whistled softly, and, starting up, the girl faced him.

"You're off—so soon?"

The color that pounded in her face might have come from her sudden change of attitude, or from emotion. Nick never saw it, so wrapt was he in his own affairs.

"I'm off," he echoed. "Did you suppose I'd stay here mourning my dear late uncle? Don't look so shocked, Gay. I needn't pretend to you, need I, that I'm bereaved?"

"I'm not shocked," the girl protested instantly, "only surprised. I've been thinking every day that you'd run in—"

"My dear, I've been deep in—packing."

He laughed, proudly displaying his handkerchief and stick.

The girl laughed too, and said: "Where are you going?"

"Where?" Nick looked at her reproachfully. "Have you shared my plans so sparingly all these years, Gay, that you ask that question? Where indeed! To the ends of the earth!"

He threw both arms wide, as if to embrace the universe, and Gay smiled; a wistful smile that caught at something in his heart which hitherto had remained untouched.

"I wish I were a man, Nick."

He answered, his eyes devouring her sweet girlishness: "You're pretty nice as you are. I don't think I'd want you changed, Gay; and I don't believe you would change, if you could."

She sank down on the grass beside the jonquills, and, as if he had forgotten his haste to be away, Nick sat beside her, his hands clasped round his knees.

"No," she said honestly, "I wouldn't change, of course; but it must be wonderful to start off as you are starting, Nick. Do you suppose I, too, don't long to go 'to the ends of the earth'? Do you imagine I like living here with Sadie Twichell, and sewing on other women's clothes in order to pay my board?"

Nick looked at her, his brows drawn into a frown.

"Do you know," he admitted, "I never thought of it. It's because you're a girl. Somehow one doesn't expect a girl to go a-gypsying, though why she shouldn't—Gay," he broke off suddenly, "what pigs men are!"

She laughed.

"One would hardly call you that, Nick, after the way you stuck by your Aunt Nettie."

"But I am," said Nick, still frowning. "I came to say good-bye to you," (his honesty made him want to reveal the fact that in selfishness he had almost forgotten the farewell, but his kind heart forbade the disclosure that he knew would hurt her), "I came to say good-bye, never thinking that you, too, might long to do what I am doing. I'm ashamed of myself, Gay. What must you think of me?"

"I think," she said, meeting his eyes soberly, "that you're getting just what you deserve—a good time. What do you think of me, to imagine for a moment that I don't rejoice with you? Nick, you're only a boy, and you've never had much fun. Why shouldn't you be a little thoughtless? I—I believe I'm glad you are!"

He stirred, a bit uneasily, while Gay added with an understanding smile: "I mustn't keep you. I know you're chafing at the bit."

She arose, leaning down to brush an imaginary something from her skirt; and as he got to his feet she stretched out a friendly hand.

"Good-bye, Nick. The best of luck to you."

He took her hand, squeezed it hard, and lifting the stick and bundle, said, with a gaiety that was a little forced: "Well, I'm off. I'll drop you a postcard from California, or Alaska, or Timbuctoo, or wherever I happen to land. Good-bye, old friend."

He found it unaccountably difficult to meet her eyes, so didn't meet them. But he got away. He got as far as the stone wall that divided Miss Sadie's land from Selina Smith's. Then he turned, though even as he did so something warned him that it is dangerous to look back. He turned squarely about, his hand raised in a last salute.

HOW ONE WOMAN LOST 47 POUNDS OF FAT

"I have been taking Kruschen Salts for nearly 3 months. I have continued taking one teaspoonful in warm water every morning. I then weighed 217 pounds, was always bothered with pains in my back and lower part of abdomen and sides.

"Now I am glad to say I am a well woman, feel much stronger, years younger and my weight is 170 pounds. I do not only feel better but I look better, so all my friends say.

"I shall never be without Kruschen Salts, will never cease taking my daily dose and more than glad to highly recommend it for the great good that is in it."—Mrs. S. A. Solomon.

"P.S.—You may think I am exaggerating by writing such a long letter but truly I feel so indebted to you for putting out such wonderful salts that I cannot say enough."

Gay was standing just where he had left her, but it seemed to Nick that all the buoyancy of youth had dropped from her. She was leaning against the gnarled trunk of an old apple tree, with the jonquills at her feet and the pink, sweet blossoms all above. In her pink gown she should have looked the embodiment of spring; but in reality she drooped, like a flower plucked by some ruthless hand and left to die. Nick couldn't bear it. He tossed his stick and bundle, emblems of freedom, to the ground, and strode back; while Gay, pulling herself together, ran to meet him.

"Did you forget something?"

"Yes," said Nick. "I forgot the best friend a fellow ever had. Gay, listen. You'll think me crazy, but—why don't you come along?"

"With you?"

Her eyes widened at the amazing proposition.

"Why not? It would be bully. I—"

Fortunately for Gay there was a rustic bench behind her. She sank down breathlessly, while Nick, with a cautious glance at the hedge that hid them from Selina Smith, took the place beside her.

"We could have the time of our lives," he urged. "I've always done things alone, but with you along—"

Gay found her tongue.

"I believe you are crazy," she said sternly. "What would people think? They'd say—"

"Oh, Lord!" Nick interrupted, with a characteristic grin, "I meant, of course, that we'd get married first."

"Get married!"

He laughed at her amazement.

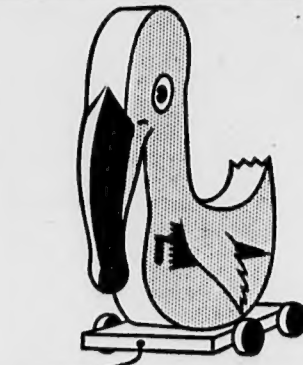

"Why not? It's been done before. We're both of age, you know. Why shouldn't we?"

"But—you don't love me."

"Nonsense! I love you a lot. Always have. Of course, if I'd bore you—"

(To Be Continued)

Wealthy residents of the ill-fated city of Pompeii had houses consisting of as many as forty rooms.

for ANY CHILD

WE can never be sure just what makes a child restless, but the remedy can always be the same. Good old Castoria! There's comfort in every drop of this pure vegetable preparation, and not the slightest harm in its frequent use. As often as your child has a fretful spell, is feverish, or cries and can't sleep, let Castoria soothe and quiet him. Sometimes it's a touch of colic. Sometimes constipation. Or diarrhea—a condition that should always be checked without delay. Just keep Castoria handy, and give it promptly. Relief will follow very promptly; if it doesn't, you should call a physician.

Fletcher's
CASTORIA

After Thirty-Three Years

Bodies Of Arctic Explorers In Excellent State Of Preservation

The bodies of Salomon August Andree and his two companions, according to the dispatches, were in an excellent state of preservation when they were found on White Island in the Arctic Sea, although it has been thirty-three years since they disappeared. This curious refinement of cruelty in the frigid parts of the earth, to preserve for years the appearance of life even in death, has made its impression on the human imagination long before now.

We recall a short story many years ago about a couple who went to the Alps on their honeymoon. The man fell into a crevasse and the guides were unable to recover his body. The girl, frantic with grief, consulted scientists as to what she could do. They told her that the glacier moved a few inches a month; at the end of fifty years, perhaps, it would move far enough to make possible penetration of the crevasse. So for fifty years she waited. And at the end of that time the body was recovered, and she by now an old, decrepit woman, was permitted to look at the body of her husband. It was perfectly preserved, and she saw the handsome boy she had married fifty years before.

The Third Emigration

Russia Worried Over People Who Will Not Come Back

The Russian Government is considerably worried over what has been designated as the "third emigration." The first emigration was that of the Socialists and anarchists in czarist days. The second was that of the one or two million Russians who fled to all parts of the world from the bolshevist terror. The third is that of the "nonreturners," soviet citizens appointed to diplomatic or other posts abroad who refuse to go back home when so ordered. The penalty for such refusal is death and confiscation of goods.

The third emigration is a striking indication of the conditions of tyranny prevailing in Soviet Russia. When government officials, presumably selected for their special zeal in the cause, desert the ship of state in considerable numbers there is reason to believe that the soviet system ought to be confined to Russia.

The Poor Man's Friend.—Put up in small bottles that are easily portable and sold for a very small sum. Dr. Thomas' Electric Oil possesses power in concentrated form. Its cheapness and the varied uses to which it can be put make it the poor man's friend. No dealer's stock is complete without it.

Is Fond Of Music

Ramsay MacDonald Listens In On Radio Broadcast Programs

Ramsay MacDonald, Prime Minister of Britain, is a great lover of music.

Speaking at the jubilee of the Guildhall School of Music in London, England, Mr. MacDonald said he had enjoyed many Sunday afternoons listening to the broadcast of Bach's church cantatas from the school.

"I confess that whether I am at home in my quiet peaceful house in Hampstead or down at Chequers," the Prime Minister's official residence, he continued, "I make it a rule to issue an order—and I am not given to that very much—that there shall be no engagement, no interference, no business, but that my friends and I shall retire to a quiet corner and spend a very inspiring, comfortable, and peaceful half-hour listening to the broadcasts."

No Room For Argument

At an exhibition of paintings, recalls Sir John Ross, former Lord High Chancellor of Ireland (in his reminiscences, "Pilgrim's Scrip"), this conversation was overheard between two women who were looking at a picture, "The Dance of Salome": "Now, what's that, Maria?" asked one.

Maria (glancing at catalogue): "Solomon dancing for Herod."

"But he never done it, Maria!"

Maria (tartly): "He musta done, else he couldn'ta been photographed."

He—"If your father catches me eloping tonight I wonder what he'll say to your mother?"

She—"He'll probably say 'Sh-h!'"

Minard's Liniment for Chest Congestion.

A Public Danger

Caught Disease On the HANDS!

Skin disease threatens us every day. Invisible germs of blood-poison, eczema, etc., are waiting to infect the least cut or sore place. The money you use carries germs—you get them on the handles, rails and straps of the trains and street cars, and in a score of other ways. Solely through Zam-buk, Mr. Henry C. Davis, of South 17th Street, Kansas City, U.S.A., has just escaped a virulent type of eczema, contracted, he suspects, through use of public towels. "I had medical advice," he says, "tried in addition all sorts of so-called eczema remedies, without finding the hoped-for relief. Zam-buk treatment soon gave positive results. It took away the painful irritation and quickly purified and healed the deep troublesome sores."

Little Helps For This Week

"Blessed are they that keep my ways."—Proverbs viii. 32.

And oh! in my exceeding weakness, Make Thy strength perfect; Thou art strong; Aid me to do Thy will with meekness, Thou, to whom all my powers belong.

If thou wilt but go on with thy duties, desiring to love—in such cases the desire of loving is love in His sight,—the irksome dullness and dryness is the thorn in thy flesh, the messenger of Satan to buffet thee. But fear not; God's grace is sufficient for thee; His strength will be made perfect in thy weakness. Only set yourself in earnest to obey His voice. Say to Him, night and day, "Behold the servant of the Lord! be it unto me according to Thy Word."

—John Keble.

Persian Balm—the ideal toilet requisite for every discerning woman. Perfect in results. Creates complexions of rare beauty and charm. Delightfully cool and refreshing. Never leaves a vestige of stickiness. A velvety smooth lotion toning and stimulating the skin. Making it truly rose-leaf in texture. All dainty women invariably choose Persian Balm. It imparts that subtle distinction so characteristic of the elegant woman.

Feed Skim Milk

Feeding tests at the Cap Rouge Experimental Station of the Dominion Department of Agriculture show that it pays to feed laying hens skim-milk. Five years tests show that with a basal ration of grain meal, shell and vegetable feeds, hens fed skim-milk laid more eggs and gained more in weight than hens fed beef scraps. Incidentally the cost of skim-milk is just one-ninth that of beef scrap.

Nearly 1,400 automobiles a month are being imported into Sweden.

Daughter Is Stronger Now

"My daughter Catherine is fifteen years old. She was very irregular, often sick at her stomach and had to stay in bed two or three days at a time. One of your booklets was sent to us by mail so I got her a bottle of Vegetable Compound. Catherine has been taking it regularly and she is gaining in weight and every way. I told the neighbors and four other girls are taking it with good results."—Mrs. Clarence Jenkinson, Box 14, Thornloe, Ontario.
